

## OCA Bundle Series

### Outdoor Cabinet & Switch Solution

#### Quick Start Guide

**Note:** Items will be shipped as a bundle but not assembled.

**Note:** Photo is for example only – not representative of all bundles.

The OCA Bundle Series offers a single ordering number for our Outdoor Cabinet Assembly (OCA-P181610) and some of our most popular PoE switches, power supplies and other accessories used within outdoor enclosures. The cabinet ships with DIN rails, terminal blocks, vent, and wire glands installed. The remaining items (switch, power supply and other accessories) are bundled with the cabinet for simplified ordering, receiving, and transporting to job sites, but must be assembled onsite.

This guide is intended as a quick summary of installation. A more detailed Install Guide (#33812) is included with the cabinet for specific installation and connection instructions. **Note:** See the related manuals for important Cautions and Warnings, Regulatory Agency Compliance, Product Descriptions, Features, Specifications, Ordering Information, Dimensions, Components, Product Views, Package Contents, Unpacking, Install Procedures, Grounding, and AC and DC Power information.

**OCA-1AB201-xx** = (1) OCA-P181610 + (1) SISPM1040-384-LRT-C + (1) PS-DC-DUAL-5624T + (2) SESPM-4P-FMKIT + (1) OCA-PMK-26 -xx: Country Specific Power Cord Option

## PoE/PoE+/PoE++ Switch Bundles

**OCA-1BA100** = (1) OCA-P181610 + (1) SISPM1040-582-LRT + (1) 25160 + (1) SESPM-4P-FMKIT + Wall Mount

**OCA-1BA101** = (1) OCA-P181610 + (1) SISPM1040-582-LRT + (1) 25160 + (1) SESPM-4P-FMKIT + (1) OCA-PMK-26

**OCA-1BA1A0** = (1) OCA-P181610 + (1) SISPM1040-582-LRT + (1) 25160 + (1) SESPM-4P-FMKIT + (1) EDCA-DIO-01 + Wall Mount

**OCA-1BA1A1** = (1) OCA-P181610 + (1) SISPM1040-582-LRT + (1) 25160 + (1) SESPM-4P-FMKIT + (1) EDCA-DIO-01 + (1) OCA-PMK-26

**OCA-1BB100-xx** = (1) OCA-P181610 + (1) SISPM1040-582-LRT + (1) PS-DC-DUAL-5624T + (1) SESPM-4P-FMKIT + Wall Mount -xx: Country Specific Power Cord Option

**OCA-1BB101-xx** = (1) OCA-P181610 + (1) SISPM1040-582-LRT + (1) PS-DC-DUAL-5624T + (1) SESPM-4P-FMKIT + (1) OCA-PMK-26 -xx: Country Specific Power Cord Option

## General Install Procedure

**Warning: Safety First:** Make sure the power supply is off before connecting or disconnecting modules or wires. The correct power supply voltage is listed on the product label. Check the voltage of your power source to ensure you are using the correct voltage. Do NOT use a voltage greater than what is specified on the product label.

Read the important Cautions, Warnings, and Notes in the Related Manuals listed above.

See the individual device manuals for package contents and unpacking procedures.

1. Attach wall mount feet or pole mount kit per Cabinet Install Guide instructions.
2. Ground terminal blocks per Cabinet Install Guide instructions.
3. Install switch on desired DIN rail per Switch Install Guide instructions.
4. Install Enclosure Door Contact Alarm (EDCA-DIO-01) on DIN rail (if provided with your configuration); connect to switch per EDCA Install Guide instructions.
5. Determine best location for Fiber Management Kit based on placement of switch and apply to flat surface of cabinet per Fiber Management Kit instructions.
6. Install power supply on DIN rail per Power Supply Install Guide instructions.
7. Connect Magnetic Door Contact switch per Cabinet Install Guide instructions.
8. Connect data cables per Cabinet Install Guide instructions.
9. Connect AC or DC power source per Cabinet Install Guide instructions.

**For More Information:** See the OCA-P181610 [Outdoor Cabinet Assembly webpage](#) and related switch, power supply, and accessory webpages.
