Product Discontinuation Notice

October 23, 2018

Dear Valued Customer / Partner:

Transition Networks would like to inform you of our plans to discontinue the remaining active chassis' and chassis accessories for the Point System product family. This will include the 1-slot chassis, the 19-slot chassis, redundant power supplies, and mounting accessories. Listed below is the discontinued model numbers, along with product descriptions. This discontinuation is part of the larger Point System discontinuation plan, first announced back in January 2016.

CPSRE2-190	19-Inch Rack Mount Ears for 2-Slot Point System Chassis

Last Order Date
Orders will be accepted for the discontinued product through January 31, 2019, or while supplies last.

Replacement Product:
Replacement product is available in The ION Platform. While the ION is not a direct replacement, the new platform offers similar functionality along with enhanced management capabilities. The ION Platform uses its own set of chassis', power supplies, management modules, and media converter slide-in-cards. The ION chassis does support the use of Point System cards via the IONADP adapter. For further help with your ION configuration, please contact your Transition Networks sales representative.

Closing
We look forward to new opportunities to support your networking requirements with our comprehensive product line. Should you have any questions, please contact your sales representative.

Sincerely,
Transition Networks Management Team
