

Product Discontinuation Notice

February 22, 2019

Dear Valued Customer / Partner:

Transition Networks would like to inform you of our plans to discontinue our multiport Gigabit Ethernet PoE media converter. Listed below is the discontinued model number along with the product description.

Discontinued P/N
SGPOE1040-110

Description:
(1) 10/100/1000Base-T PoE RJ-45 port to (2) 100/1000Base-X open SFP ports

Last Order Date

Orders will be accepted for the discontinued product through May 31, 2019, or while supplies last.

Replacement Product:

Direct replacement product will not be available; however alternative product is available in our PoE+ media converter family. PoE+ is backwards compatible with standard PoE and the SGPAT1040-205 offers the same port count combination as is in the discontinued SGPOE1040-110.

Closing

We look forward to new opportunities to support your networking requirements with our comprehensive product line. Should you have any questions, please contact your sales representative.

Sincerely,
Transition Networks Management Team
