## Product End-of-Life Notice

January 5, 2018

Dear Valued Customer / Partner:

Transition Networks would like to inform you of our plans to discontinue our SRFB family of Remotely Managed Fast Ethernet media converters. These devices provide a connection between a 10/100Base-TX RJ-45 ports and a 100Base-FX fiber ports. The family also supports remote management of a stand-alone unit when linked over fiber to a slide-in-card installed in a managed Point System chassis. This end-of-life notice is part of the larger discontinuation the Point System family of media converters announced back in January of 2016.
