Product Discontinuation Notice

July 7, 2021

Dear Valued Customer / Partner:

Transition Networks would like to inform you of our plans to discontinue a couple of our Managed layer-2 Network Interface Devices (NID) within the C3220 and S3220 product families. Listed below are the discontinued part numbers along with their descriptions.

Discontinued P/N

C3220-1013

Description:

ION slide-in-card, 10/100/1000BASE-T (RJ-45) [100 m] to 1000BASE-SX 850nm MM (SC) [62.5/125µm fiber: 220m] [50/125µm fiber: 550m]

S3220-1013

ION stand-alone, 10/100/1000BASE-T (RJ-45) [100 m] to 1000BASE-SX 850nm MM (SC) [62.5/125µm fiber: 220m] [50/125µm fiber: 550m]

Last Order Date

Orders will be accepted for the discontinued product through September 30, 2021, or while supplies last.

Replacement Product:

A direct replacement product will not be offered. However, the same transmission distances can be achieved with an open SFP converter (**C3220-1040 and S3220-1040**) and the appropriate SFP module to match your required fiber type and transmission distance.

Closing

We look forward to new opportunities to support your networking requirements with our comprehensive product line. Should you have any questions, please contact your sales representative.

Sincerely,
Transition Networks Management Team
