Product Discontinuation Notice

January 11, 2017

Dear Valued Customer / Partner:

Transition Networks would like to inform you of our plans to discontinue our IONPS-A power supply module. This power supply supports an AC power input and can be installed in either the primary or the secondary (redundant) slots in the 19-slot ION chassis. The end-of-life is due to the discontinuation of key components used in the design of this power supply. Listed below is the discontinued model number, along with its replacement model number.

Discontinued P/N
IONPS-A

Description:
AC Power Supply Module, 100-240VAC input, for the 19-slot ION Chassis

Replacement P/N
IONPS-A-R1

Description:
AC Power Supply Module, 100-240VAC input, for the 19-slot ION Chassis

Note: The replacement power supply module will no longer support the use of the Dry Contact Relay Module (IONDCR).

Last Order Date

Transition Networks will be offering an additional 6 month last-time-buy period on the IONPS-A. We will be accepting orders through June 30, 2017, or while supplies last.

Closing

We look forward to new opportunities to support your networking requirements with our comprehensive product line. Should you have any questions, please contact your sales representative.

Sincerely,
Transition Networks Management Team
