

Federal Government Capabilities

Lantronix has been an industry leader in evolving networks of all kinds for over 30 years. This expertise has resulted in a broad portfolio of solutions that allows for cost-effective integration of fiber into any data network, supporting multiple protocols, and accommodating multiple interfaces to suit nearly any application. The Lantronix team also works closely with customers to develop custom designs for new, modified, and integrated solutions in very specialized applications.

Using a consultative approach to understanding customer problems supported by strong agency relationships, Lantronix has long been a trusted partner of the Federal Government. Lantronix is headquartered in Irvine, CA, U.S.A. and provides worldwide technical support. Lantronix is also ISO 9001 quality system certified, provides TAA compliant products that are 99.4% free from defects, and offers a lifetime warranty on many products.
