## Product Change Notice

Dear Valued Lantronix Customer,

The processor in the SCS100-01 and SCS100-02 secure console server products has reached end-of-life and is being replaced. The processor will be updated from the NETARM15 to the newer NETARM40. For quality purposes we are changing the part numbers for these products to differentiate them from the previous version. The new versions of the product will be available in approximately 6-8 weeks.

<b>Old Part Number</b>	<b>New Part Number</b>
SCS100-01	SCS100-11
SCS100-02	SCS100-12

The form, fit, and price of the products have not changed. The SCS100-11 and -12 will ship with a newer firmware version, V2.0/3. The new firmware includes all of the functionality in the current firmware shipped with the SCS100-01 and -02 today, plus additional new features. Firmware V2.0/3 resolves known issues, as well as adds the following features:

- SSHv2 support
- Security Key Generation
- Authentication
  - User name/password, RSA Shared Key for SSHv1
  - User name/password, DSA Shared Key for SSHv2
- Login Banner Pages
- Configurable <Backspace> Behavior
- Remote Firmware upload via FTP
- Configurable Serial Break Handling
- Incoming Security: Enable/Disable FTP and Web Server
- Web Page Authentication
- Network Address Translation (NAT) with Port Mapping
- Wireless "Open" WEP Support
- Dialback on Hangup
- Serial Port Snoop Functionality
- Character Mode Sites
- Nested Menus
- Pocket PC PPP Support

- DHCP Support
- Boot Gateway Support
- Modem Emulation
- Port User Restrictions

Current orders for SCS100-01 and -02 products are being fulfilled with the corresponding part number ordered until supply is depleted and will then be fulfilled with the new part number listed above.

For future orders please use the new part numbers listed above when they become available. If you have any questions please contact your sales representative or Lantronix Customer Support at (866) 649-0721.
