## PRODUCT CHANGE NOTICE

Dear Valued Lantronix Customer,

The purpose of this notice is to inform you about an upcoming change to the SCS400, 4-port Secure Console Server.

### Description of Change

The processor used in the SCS400-01 and SCS400-02 models has reached end-of-life and is being replaced. This component will be updated from the NETARM15 to the newer NETARM40. For quality and tracking purposes we will be changing the part numbers for these products to differentiate them from the previous version.

### Differences (Old/New)

<u>Current Part Number</u>	<u>New Part Number</u>
SCS400-01	SCS400-11
SCS400-02	SCS400-12

There are no changes to the form, fit, or function of the product. The new versions of the product will ship with the same version of firmware, version 2.0/4, and therefore the same feature set, as the current products.

### Additional Information

The new SCS400-11 and SCS400-12 products will be available beginning April 2004. At that time please use the new part number for all future orders.

If you have any questions, please contact your sales representative or Lantronix Customer Support at (866) 649-0721 or (949) 453-3990 x342.
