PRODUCT CHANGE NOTICE

Dear Valued Lantronix Customer,

The purpose of this document is to notify you of an upcoming change to the 4-port Secure Console Servers, models SCS400-01 and SCS400-02.

Description of Change

New firmware is available for the SCS400. The new firmware, V2.0/4, will be available for download to upgrade existing units and will be shipped with all new units after February 20, 2004.

Differences

The new firmware, V2.0/4, includes all of the functionality in the current firmware, V2.0/1, plus additional new features. Key new functionality includes:

- TCP Keepalive Control
- Web Page Access Control
- Outbound CHAP Port Authentication
- Web Page Authentication
- Network Address Translation (NAT) with Port Mapping
- Wireless "Open" WEP Support
- Dialback on Hangup
- Serial Port Snoop Functionality
- Character Mode Sites
- Nested Menus
- Pocket PC PPP Support
- DHCP Support
- Boot Gateway Support
- Modem Emulation
- Port User Restrictions

Additional Information

In addition to new features, V2.0/4 also resolves a number of known issues. For more information on the features and maintenance updates, release notes are available through Lantronix Technical Support.

If you have any questions, please contact your sales representative or Lantronix Customer Support at (866) 649-0721 or (949) 453-3990 x342.
