Product Change Notice

Dear Valued Lantronix Customer,

The purpose of this document is to notify you of a firmware update to our SecureLinx™ SLK Remote KVM™. Firmware versions 2.5.3 for SLK1/SLK8 and 1.5e for the SLK16 will begin shipping at the end of May '05:

Model Number	Part Number	Description
SLK1	SLK00112N-01	SecureLinx 1-Port Remote KVM
SLK8	SLK00812N-01	SecureLinx 8-Port Remote KVM
SLK16	SLK01612N-01	SecureLinx 16-Port Remote KVM

This firmware update for above SLK models includes the following features and enhancements. While a number of new features and capabilities have been added to SLK, action is not required unless electing to implement these new features.

Feature/Enhancement	Description/Benefit
SecureLinx SLP Integration	A SecureLinx SLP Remote Power Manager can be attached to SLK via a serial (RS-232) interface, to provide individual outlet control from the SLK web interface.
New Java Viewer Applet	Improved ease-of-use and performance: <ul style="list-style-type: none"> ○ Automatic and manual video scaling ○ Auto alignment ○ Ability to auto-detect which viewer mode is supported ○ New interface structure, more compact and space saving
Administrator Accounts	Secondary administrator accounts added
Increased User Accounts	Number of user accounts has been extended to 32 (SLK1, SLK8 only)
Host Interface Update	Improved host video detection, and host compatibility

Firmware update files and release notes are now available on the Lantronix web site:
