

PCN- 109

Dear Valued Lantronix Customer,

The purpose of this communication is to inform you that Lantronix has **discontinued the SecureBox® SDS2100** external Serial-to-Ethernet secure device servers.

We will continue to provide support for these products through **December 2010**.

The replacement for the SDS2100 is the SDS2101 secure device server. The SecureBox® SDS2101 offers the most secure way to add formerly isolated electronic equipment to the Ethernet network. With this capability, virtually any device with a serial port can be remotely accessed and controlled securely over the network or the Internet. This adds an unprecedented level of flexibility and efficiency to your business, and breathes new life into your existing equipment.

SDS2101 features:

- Securely network-enable serial devices with 128-256 bit **AES**-certified encryption
- Transparent communications - no need to develop special software
- RS-232 DCE serial port pinned the same as modem for easy connection
- 10/100 Ethernet Interface
- Supported by Lantronix [Secure Com Port Redirector™](#) software

Transition Table:

Existing Part Number	Replacement Part Number	Availability
SD2100001-01 (Domestic Power Supply)	SD2101002-11 (Universal Power Supply)	Will start shipping the end of January
SD2100002-01 (International Power Supply)	SD2101002-11 (Universal Power Supply)	Will start shipping the end of January

If you have any questions, please contact your Lantronix Sales Representative or Lantronix Customer Support at (866) 649-0721 or (949) 453-3990 x342.
