PRODUCT CHANGE NOTICE

Dear Lantronix Customer,

The purpose of this communication is to inform you of an upcoming change to the following products. This change is part of our effort and commitment to continuous improvement of our products and processes.

Change Type

Firmware

Products Affected

Part Number	Description	Old Revision	New Revision
LOQ-8550DRP-EVK	Open-Q™ 8550 Drone Reference bundle with camera and accessories	A11	B11

Description and Extent of Change

Lantronix is pleased to announce the release of new and improved Open-Q™ 8550DRP EVK Application firmware Ubuntu v1.2. This software is released to support use of the Foresee DDR RAM.

Refer to the release notes for a complete list of features.

For customers that would like to take advantage of the new capabilities of firmware version 1.2, the new firmware available for download from our website: <http://www.lantronix.com/support/downloads>.

Reason for Change

New firmware release is that changes are required to support the new choice of DDR on the SOM.

Effect of Change on Fit, Form, Function

Functional changes as noted on release notes.

Note: Previous Ubuntu BSP versions are deprecated for Eval Kits of B11 onward, due to potential incompatibility with the DDR on the dev kit SOMs.

Effective Date of Change

This change will go into effect for the listed products built from **September 8th, 2026** onwards.

If you have any questions, please contact your sales representative or contact Lantronix Technical Support by submitting a ticket to: <https://ltrxdev.atlassian.net/wiki/spaces/LTRXTS/overview>
