## PRODUCT CHANGE NOTICE

Dear Valued Lantronix Customer,

The purpose of this communication is to inform you of a product change for our SecureLinx Branch Office Manager (SLB) and SecureLinx Console Server (SLC) product line. The product change is the planned transition from our PCMCIA interface to a USB interface. As the growing trend moves away from PCMCIA technology to USB, this transition gives Lantronix the long term flexibility of interfacing to USB supported devices.

This transition does not affect the form factor of the SLB/SLC. The only physical change is the PCMCIA slot being replaced with the USB port, while functionality remains the same.

### Description of Change

#### Current SLB-01/SLC-02 Model

#### SLB-02/SLC-03 With PCMCIA replaced with USB port

The SKUs listed in the table below show the affected SKU and its replacement SKU. Replacement SKUs will be active February 1st 2010 for ordering. Products will begin shipping February 15th 2010.

SLB-01 and SLC-02 SKUs will be phased out and no longer available for sale by February 1st 2010. Customers using custom SKUs will need to contact their Lantronix sales representative.
