

PRODUCT DISCONTINUATION NOTICE

Dear Valued Lantronix Customer,

The purpose of this communication is to inform you of an amendment to PCN-470 applicable only to the XPort Pro (Linux OS) variant. For the XPort Pro (Evolution OS) and XPort Pro Lx6, please refer to PCN-472 for additional details.

Products Affected

XPort Pro (Linux OS)

Description and Extent of Change

Lantronix would like to inform you that it is announcing the end-of-sale and end-of-life for the current revision of the XPort Pro (Linux OS) device networking module and offering a new revision of the product. Please refer to the table below for details on the part numbers affected by this announcement and their corresponding replacement part numbers.

In order to enable customers to qualify the new part number, the last day for placing a final non-cancellable, not returnable purchase order for the affected products is June 30, 2017 with a scheduled delivery date no later than September 30, 2017 (availability subject to stock at hand).

Existing Part Number	Replacement Part Number	Replacement Part Description
XPP1003000-02R	XPP1003000-04R	XPort Pro Device Networking Module, Linux OS, AES Encryption, 16MB SRAM, Extended Temperature, RoHS, Bulk
XPP100300S-02R	XPP100300S-04R	XPort Pro Device Networking Module, Linux OS, AES Encryption, 16MB SRAM, Extended Temperature, RoHS, Sample

XPP1003000-04R

The existing Memory Chip Module used in the XPort Pro has been discontinued by the manufacturer and is no longer available. A drop-in replacement memory module, which is pin-to-pin and function/feature compatible with the discontinued memory chip module, has been qualified and will be used on the replacement XPort Pro (Linux OS) part numbers described in the table above.

Customers creating custom firmware via the uClinux SDK will need to rebuild their firmware with the new SDK release (2.0.0.8) to integrate the required platform adaptation layer changes for this new part number. The firmware image created using the new SDK release will be backward compatible with the discontinued part number as well as the new part number. The SDK release is available for download from the Lantronix website and via Lantronix forums starting May 11, 2017.

Samples of XPort Pro (Linux OS) with the new Memory Chip Module (XPP100300S-04R) are available starting May 26, 2017. Based on previous PCN update, if you have requested Revision B15 or C15 of the XPP100300S-02R module that has not been fulfilled, Lantronix will convert these orders to the new sample part number (XPP100300S-04R). Please contact your local sales representative as soon as possible to place sample requests.

XPP1003000-04R (Bulk SKU) will begin shipping from the factory by July 1, 2017.

If you have any questions, please contact your sales representative or Lantronix Technical Support at (800) 422-7044 or (949) 453-7198.
