Description and Extent of Change
Lantronix is pleased to announce the release of SGX 5150 Application Firmware version 8.1.0.1R17. This new firmware offers several new features and improvements including:

- Corrected KRACK WPA2 Vulnerability - Wi-Fi Protected Access CVE- Group 1 and Group 2
- Lantronix MACH10 support
- Added Role based access control to create multiple users and roles
- Added WLAN Scan channel list selection
- Maximum TX Power setting now available
- Network access for gateway in transparent bridging mode

Refer to the release notes for a complete list of additional features.

For customers that would like to take advantage of the new capabilities immediately, the new firmware, associated release notes and upgrade instructions is available for download from our website, http://www.lantronix.com/support/downloads.

Effect of Change on Fit, Form, or Function
Functional changes as noted above.

Effective Date of Change
The affected products with the above changes will begin shipping from the factory by December 1, 2017.

If you have any questions, please contact your sales representative or Lantronix Technical Support at (800) 422-7044 or (949) 453-7198.
