

PRODUCT CHANGE NOTICE

Dear Valued Lantronix Customer,

The purpose of this communication is to inform you of the availability of new software release for products based on the CoBos operating system.

Change Type

Software

Products Affected

MICRO125

Part Number	Description	Old Revision	New Revision
MICRO125-KIT	Evaluation Kit for the Micro125 Embedded Device Server	B11	C11
MO11AA003-01R	MICRO125 WITHOUT ENCRYPTION, ROHS	C13	D13
MO11AA003-G1-GR4-R	Micro125 Device Server, No Encryption, for AMAG Technology/Group4, RoHS, TAA	A12	B12
MO11AA0E3-01R	MICRO125 WITH ENCRYPTION, RoHS	C12	D12
MO11AA0E3-G1-GR4-R	Micro125 Device Server for AMAG Technology/Group4, with AES Encryption, RJ45 Connector, LEDs, TTL Pin Header, RoHS, TAA Compliant	A12	B12
MO22AA003-01R	MICRO125 WITHOUT ENCRYPTION, RoHS	C12	D12
MO22AA0E3-01R	MICRO125 WITH ENCRYPTION, ROHS	B11	C11

Description and Extent of Change

New application firmware is available for the above products and their SKUs that addresses the vulnerability for customers using the basic password configuration instead of the enhanced password configuration.

This update enhances the security and handling of passwords. If you are using the basic password, this is a critical security update. Even after applying this updated firmware, we highly recommend that you only use the enhanced password in your systems. Please refer to the user documentation on further details regarding the configuration of the enhanced password.

Effect of Change on Fit, Form, Function, Quality, or Reliability

For customers using standard Lantronix firmware, it is highly recommended that you upgrade your firmware to the new versions outlined below.

Product Variant	Part Number	Software Version
MICRO125	MICRO125-KIT MO11AA003-01R MO11AA003-G1-GR4-R MO11AA0E3-01R MO11AA0E3-G1-GR4-R MO22AA003-01R MO22AA0E3-01R	Firmware: v6.11.0.7

The firmware is available for download from the Lantronix website (<http://www.lantronix.com>) from January 30, 2018.

Customers creating custom firmware via the CoBos CPK will need to rebuild their firmware with the updated CPK release. Updated CPK (version 611010) is available now, please contact your Lantronix Field Application Engineer for access.

Effective Date of Change

Affected products will begin shipping with the new software from the factory by July 1, 2018.

If you have any questions, please contact your sales representative or Lantronix Technical Support at (800) 422-7044 or (949) 453-7198.
