Lantronix is pleased to announce the release of new and improved SLC 8000 firmware 8.3.0.0R10.

Description and Extent of Change

- ConsoleFlow System Log and Configuration File
- Support has been added in ConsoleFlow for saving system logs and configuration files from the SLC.
- Unique Default Sysadmin Password.
- For newly manufactured units, the default sysadmin password will be unique for each SLC8000.
- The default sysadmin password will be the last 8 characters of the Device ID if it is set, or the last 8 characters of the serial number if the Device ID is not set.
- This feature will not be present on units that are updated via a patch firmware update.
