Description and Extent of Change

Lantronix is pleased to announce the release of new and improved X300F202S firmware version 2.1.0.0R17. The release includes new features and bug fixes including:

NEW FEATURES:

- Switch over to PercepXion, a new management portal.
- Support to update firmware and configuration from USB drive/MMC card.
- Support to connect to default wireless client network for initial setup.
- Support for Wireguard and Zerotier.
- Support for newer SSH clients.

Bug fixes:

- Fixed potential connectivity issue if custom APN was configured on previous release.
- Stability and performance improvements.

Refer to the release notes for a complete list of features and bug fixes.

For customers that would like to take advantage of the new capabilities of firmware version 2.1.0.0R17, the new firmware available for download from our website: <http://www.lantronix.com/support/downloads>.
