

**LANTRONIX, INC.****Non-GAAP Financial Information**

Lantronix believes that the presentation of non-GAAP financial information, when presented in conjunction with the corresponding GAAP measures, provides important supplemental information to management and investors regarding financial and business trends relating to the Company's financial condition and results of operations. Management uses the aforementioned non-GAAP measures to monitor and evaluate ongoing operating results and trends to gain an understanding of our comparative operating performance. The non-GAAP financial measures disclosed by the Company should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and the financial results calculated in accordance with GAAP and reconciliations of the non-GAAP financial measures to the financial measures calculated in accordance with GAAP should be carefully evaluated. The non-GAAP financial measures used by the Company may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies. The Company has provided reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures.

Non-GAAP net income (loss) consists of net income (loss) excluding (i) share-based compensation and the employer portion of withholding taxes on stock grants, (ii) depreciation and amortization, (iii) interest income (expense), (iv) other income (expense), (v) income tax provision (benefit), (vi) severance and restructuring charges, (vii) acquisition related costs (viii) impairment of long lived assets, (ix) amortization of purchased intangibles, and (x) amortization of manufacturing profit in acquired inventory.

Non-GAAP net income (loss) per share is calculated by dividing non-GAAP net income (loss) by non-GAAP weighted-average shares outstanding (diluted). For purposes of calculating non-GAAP net income (loss) per share, the calculation of GAAP weighted-average shares outstanding (diluted) is adjusted to exclude share-based compensation, which for GAAP purposes is treated as proceeds assumed to be used to repurchase shares under the GAAP treasury stock method.
